

Subject- SUK Integration with Thermoseal Group- Strengthening Our Partnership

Dear Valued Customer.

We are pleased to share an important update regarding the integration of SUK with the Thermoseal GROUP. Both companies are proud members of the Fenzi S.p.A. worldwide manufacturing organisation, and this integration allows us to offer you a wealth of synergistic benefits while maintaining the service standards you value.

About the Fenzi Group

Established in 1941, the Fenzi Group brings over 80 years of extensive industry experience. Today, the Group employs approximately 1,300 people worldwide and generates annual sales of around €600 million. Whilst we are a large, global organisation, we remain firmly rooted in family values, with a strong focus on long-term partnerships, quality and trust.

Our commitment to sustainability and innovation is demonstrated through:

- EPD (Environmental Product Declarations) for IG sealants and spacer profiles
- A portfolio of innovative, sustainable and certified products
- Cutting-edge laboratory facilities ensuring consistent quality and performance
- Proven, reliable and certified solutions backed by outstanding technical expertise

We also pride ourselves on delivering exceptional technical assistance and customer support at a local level, ensuring you always have access to knowledgeable specialists when you need them.

Benefits at a Local Level

The integration delivers tangible advantages close to your business:

- Greater flexibility to understand and respond to your specific needs
- Improved delivery cycles and logistics efficiency
- Reliable local stockholding of products
- In-house laser printing at local depots for enhanced service and customisation

Importantly, our products are:

- Made by Fenzi Group companies
- Sold by Fenzi Group companies
- Delivered and supported by Fenzi Group companies

January 2026

This fully integrated approach ensures consistency, accountability and quality throughout the entire supply chain.

#### Expanded Product Offering

As part of this integration, we are also pleased to introduce new, proven additional products, including

- Integra
- Thermobar
- Thermoflex

These products further strengthen our ability to provide comprehensive, high-performance solutions tailored to your requirements.

#### A Seamless Transition

Our objective is to make this transition as seamless as possible for you. You will continue to work with:

- The same people
- The same care and attention to detail
- The same pricing and trading conditions

At the same time, you will benefit from improved delivery performance and enhanced product offerings.

Please do not hesitate to speak with your local representative should you require any clarification or further information. We remain fully committed to supporting your business and strengthening our partnership for the future.
